

ISIE 2007 – IEEE International Symposium on Industrial Electronics
June 4-7, 2007, Centro Cultural & Centro Social Caixanova, Vigo, Spain

Special Session on

**NEW CHALLENGES IN POWER QUALITY IN MODERN
DISTRIBUTION SYSTEMS.**

organized and co-chaired by

Josep Balcells and (balcells@eel.upc.edu)
Universitat Politècnica de Catalunya (Spain)

Jan Bialasiewicz (Jan.Bialasiewicz@cudenver.edu)
University of Colorado at Denver (USA)

Call for Papers

Topics of interest include, but are not limited to:

- PQ in modern distributed generation systems
- Models for PQ prediction and assessment
- Numerical methods for PQ measuring and filtering
- Wavelet-based techniques for PQ measuring and filtering
- Synchronisation of distributed PQ measuring systems
- Disturbances propagation tracking
- Power conditioning equipment: Active filters, STATCOM
- Power Line Communications and PQ
- Grounding issues related to PQ

Submission procedure and deadlines: **The same as for regular papers.**

All the instructions for paper submission are included in the conference website:
